CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY (AUTONOMOUS)

Department of Computer Science & Engineering · B.E. III Semester (3rd CSE-5)
Official Examination Notice, Proctoring Rules & Candidate Instructions — Internal Lab Exam-2

⚠️ **MANDATORY SUBMISSION DEADLINE — COMPLETE BEFORE FRIDAY (OCTOBER 23, 2026):** All students of **3RD CSE-5 (BATCH 1: ROLL NOS. 281–304, BATCH 2: ROLL NOS. 305–328, BATCH 3: ROLL NOS. 329–REST)** must log in to the **CODESHIELD CBIT PROCTORED EXAMINATION PORTAL**, activate their permanent password, and complete & submit their assigned **INTERNAL LAB EXAM-2** questions **ON OR BEFORE FRIDAY, OCTOBER 23, 2026**. Late or unsubmitted attempts will be marked absent/zero.

1. EXAMINATION OVERVIEW & SYLLABUS COVERAGE

Parameter	Official Specification
Course & Target Class	Java Programming Lab — B.E. III Semester, **3rd CSE-5** (71 Candidates across Batches 1, 2 & 3)
Chief Exam Coordinator	**Dr. I. Srujana**, Assistant Professor, Dept. of CSE, CBIT (Project Developer & Chief Administrator)
Completion Window	**Must be completed before Friday, October 23, 2026** (Duration once launched: **60 Minutes**)
Question Allocation	Each candidate is dynamically assigned **1 Unique Set (2 Questions: Part A + Part B = 20 Marks)** out of 50 sets so adjacent and alternate roll numbers never receive identical questions.
Part A Syllabus (10M)	**UNIT-IV (Collections & Java 8):** `Collection`, `Set`, `List`, `Map`, `ArrayList`, `LinkedList`, `HashSet`, `TreeSet`, `HashMap`, `TreeMap`, `Iterator`, `ListIterator`, `Comparable`, `Comparator`, `Lambda Expressions`, `Functional Interfaces`.
Part B Syllabus (10M)	**UNIT-III (Exception Handling, Multithreading & Generics):** `try`, `catch`, `throw`, `throws`, `finally`, Custom Exceptions, `Thread` class, `Runnable`, Thread Life Cycle, Thread Priorities, `Thread.sleep()`, `synchronized`, `Generic Class` & `Generic Methods`.

2. STEP-BY-STEP CANDIDATE LOGIN & PERMANENT PASSWORD ACTIVATION

1. **Use Only the Left-Hand "Student Candidate Portal":** Enter your 12-digit CBIT Roll Number (e.g., `160125733281`) or official CBIT email (`rollno@cbit.ac.in`). Do not use the right-hand Administrator panel.
2. **First-Time Login with Temporary Batch Password:** Enter the individual temporary password from your official Batch Credential Sheet (e.g., `Cbit#281...`) and click **Authenticate & Enter Portal**.
3. **Mandatory Permanent Password Setup:** Immediately upon first sign-in, a security prompt will appear requiring you to set your personal **Permanent Password** (minimum 6 characters). Once saved, your temporary batch password is permanently deactivated. Remember your new permanent password for all future logins.
4. **Launch the Proctored Exam:** On your Student Dashboard, click **Open Proctored Exam →**, read the security briefing, and click **I Agree — Enter Fullscreen & Start Proctored Exam**.

3. STRICT PROCTORING & ANTI-CHEAT LOCKDOWN RULES (CHAITANYALOCK V3.0)

The examination workspace is actively monitored by **ChaitanyaLock v3.0**. Every violation is timestamped and logged to the Chief Administrator's live scorecard:

- **Rule 1 — Mandatory Fullscreen Kiosk Mode:** The exam must remain in hardware fullscreen mode at all times. Pressing `Esc` or exiting fullscreen immediately locks the code editor with a red security overlay and logs a `FULLSCREEN_EXIT` violation flag.
- **Rule 2 — Zero Copy, Paste, Cut, Drag-and-Drop, or Right-Click:** All clipboard actions (`Ctrl+C`, `Ctrl+V`, `Ctrl+X`, `Shift+Insert`, mouse drag/drop, and right-click context menus) are strictly blocked and immediately logged as proctoring violations. You must type your entire program directly in the editor.

- **Rule 3 — No Tab Switching or Window Focus Loss:** Switching browser tabs, minimizing the browser, splitting the screen, or clicking any external application (WhatsApp, IDE, AI tools, or notes) triggers an immediate `TAB_SWITCH_OR_MINIMIZE` or `WINDOW_LOST_FOCUS` violation flag.
- **Rule 4 — Developer Tools & System Shortcuts Blocked:** Pressing `F12`, `Ctrl+Shift+I/J/C`, `Ctrl+U`, `Ctrl+S`, `Ctrl+P`, or `Alt+Tab` is blocked and flagged.
- **Rule 5 — 3-Strike Automatic Termination Threshold:** Accumulating **3 proctoring violation flags** (or reaching the 60-minute timer limit) will **automatically terminate, lock, and submit** your exam attempt immediately.

4. CODING, COMPILATION, AUTO-SAVE & FINAL SUBMISSION GUIDELINES

- **Java Class & Package Rules:** When coding in Java, your main class must be declared as `public class Main` with `public static void main(String[] args)`. Do not add a `package` statement. Read all inputs from standard input (`Scanner sc = new Scanner(System.in);`) and print outputs matching the exact format shown in the visible sample test cases.
- **Required Syllabus Constructs:** Your solution must use the specific **UNIT-IV** collection/lambda construct (for Part A) and **UNIT-III** exception/threading/generic construct (for Part B) stated in the question.
- **Test Before Submitting:** Click ▶ **Compile & Run Sample Tests** to verify your output against the 2 visible sample test cases without penalty. Then click ✔ **Submit & Auto-Grade Question** to grade against all sample + hidden test cases and save your score for **both Question 1 (Part A) and Question 2 (Part B)**.
- **Final Submission Before Friday:** After submitting both Part A and Part B, click the red **Finish & Submit Exam** button in the top bar to seal your scorecard before **Friday, October 23, 2026**.

Issued By:
Dr. I. Srujana
Assistant Professor, Dept. of CSE, CBIT
Project Developer & Chief Exam Administrator

Action Required By All 3rd CSE-5 Students:
Complete & Submit on CodeShield CBIT Portal
Deadline: Before Friday, October 23, 2026
